5,500,000**

1

Introduction to Cyber Security

Discover the world of cybersecurity and its impact, as you uncover the most common threats, attacks and vulnerabilities.

You'll learn how to protect your personal privacy online while gaining additional insight on the challenges companies, government and educational institutions face today.

No prerequisites required.

A combination of 1 (one) day online delivery with an RMIT facilitator in real time, and 1 (one) day online self-paced learning.

**2 (two) days
intensive course**

2

Cyber Security Essentials

Learn valuable security principles to defend networks. A single breach can have huge consequences for a company, hurting the bottom line and causing disruption in the daily lives of millions of people. That is why the demand for security professional continues to grow.

Get onboard - and develop an understanding of cybercrime, security principles, technologies and procedures used to defend networks

A combination of 3 (three) days online delivery with an RMIT facilitator in real time, and 2 (two) days online self-paced learning.

**5 (five) days
intensive course**
