Liony Lumombo

Game UI/UX Designer - Lecturer - Unreal Authorized Instructor
Riau Islands, Indonesia

Summary

As an Unreal Authorized Instructor, I bring specialized expertise in Game Development, UI/UX Design, and Graphic Design to my role as a lecturer and researcher at Politeknik Negeri Batam and at Infinite Learning as a mentor. With over a decade of experience in education, I have honed my skills in identifying and developing educational games designed specifically for children.

My commitment to continuous learning is underlined by my role as an Unreal Authorized Instructor, where I stay ahead of emerging trends in Game Development. This official designation from Unreal Engine attests to my proficiency and recognized competence in teaching and utilizing this powerful game development platform.

Outside academia, I actively participate in external training sessions, utilizing my expertise to contribute to the broader educational and professional landscape. My extensive experience positions me as a dynamic professional adept at navigating the ever-evolving field of technology and design with a focus on Unreal Engine, a testament to my dedication to excellence in game development education.
